Dear [Hiring Manager],

I'm writing to express my interest in a Full Stack Developer role. With hands-on experience in both front-end (React, JavaScript, HTML/CSS) and back-end (Node.js, MongoDB, Express.js, Flask, Django) technologies, I have successfully contributed to web applications like the Travel & Tourism Web App and Service Fulfillment System, developed as part of collaborative academic and hackathon projects.

My internship at OpenText further deepened my exposure to software development cycles, where I was involved in debugging, implementation, and testing in an Agile environment. I am confident in my ability to deliver scalable, user-friendly applications that align with your organization's goals.

I would welcome the opportunity to contribute and grow as part of your development team.

Sincerely,

Vigneshwar Reddy Gangireddy
